A Greeting From Minister Ken Cooper of Mountainview Church

Do you have a place to go where you feel like you belong? Most of us go to be with family. We love family gatherings during the holidays because of the warmth that we feel when we are "home" with our loved ones. Those people and the times we

spend with them are precious to us. We cherish those times in our hearts.

But today, our culture keeps us busier and busier. Our children's school activities and outside activities keep us running at a frantic pace. We long for a time and a place where we can just get away from all of the clamor of life in the 21st century and be with people who care about us and just feel like we belong. Unfortunately, if that place is home, most Americans today live hundreds of miles from home. And we don't find community in soccer games,

school plays, football or basketball, music programs, gymnastics, swimming teams, etc. In none of these activities do we find that sense of belonging, that sense of community. So, where do you go when you want the comfort and security of being with people who know and love you?

You know what I'm going to say. You can find that sense of community in church. Mountainview Church is a small church right now and many of the people who worship here say that they came and stayed because of the "sense of family" they found here. If you are looking for a place where you are welcomed as part of the family, we invite you to visit Mountainview Church. Sunday mornings can be the time and Mountainview Church can be the place to get away from the pressures of your daily life and come to where you can be a part of the "family".
