- Get the house under roof in the least possible time
- Customize the partition walls to suit individual needs and tastes
- Wood is a natural insulator-up to 6x insulating capacity of brick
- Ease of construction-any builder or qualified "do-it-yourselfer" should be able to construct an American Log Home by just studying the materials we provide
- Conventional interior walls
- Higher resale value
- Energy efficiency keeps heating and cooling bills to a minimum.
- Built for 1/3 less than conventional housing
- Stylish natural wood beauty
- Virtually maintenance free and weather tight home

**American Log Homes** located in Charlotte, North Carolina has been a leader in the log home industry for many years. Our management staff has a combined 70 years of log home experience. Manufacturing a quality log home and service is number one.

American Log Home's drafting department provides modification assistance on our 25 standard plans and has the flexibility to design and customize the home of your dreams.

American Log Homes does not sell directly to the public, only through our dealer network.

American Log Homes are constructed with only native southern yellow pine logs. The logs can be cut flat or round inside at no additional cost. The 6" high by 8" wide kiln dried, heart of the tree logs, provides you high "R Value" insulation, and virtually a maintenance free "Dream Home."
