about the Guide. . .

We are pleased to announce the publication of our forty-ninth CHURCH GUIDE. Its purpose is to provide you with vital and interesting information about churches, ministries, and Christian businesses and professionals in our communities. By so doing, we hope to make it easier for you to make a selection. When you visit a church or business, please let the minister or manager know you are visiting them because you saw their advertisement in the CHURCH & CHRISTIAN BUSINESS GUIDE.

In reviewing this Guide, you will find that churches are classified first by general area, then alphabetically by denomination in that area. There are eight geographical areas in the index. Because many churches abut sector boundaries, please look through all areas in selecting one you will want to visit. There are also sections regarding Christian events, groups and activities, plus child care, counseling, schools, etc.

We trust this Guide will be a helpful resource in finding a church or business. Should you have any questions about the Guide, please call (303) 373-9977. Again, if the Guide has been helpful to you, please be sure to thank the minister, as well as the businesses and professionals, for communicating their services to you in the GUIDE.

about the front cover
of this issue...

The outside front cover of this issue of the Church & Christian Business Guide contains four digital photos that were provided by the staff members of Jefferson Real Estate, Inc. Clay Copeland, President/Broker of JRE, is one of the most experienced real estate professionals in the area, having worked there for the past 38 years, from the same location. Anyone who savors a dream of locating in the mountains, should contact the staff of Jefferson Real Estate. We are deeply grateful for their contribution to the artwork and theme for the outside front cover of this very special issue of our Guide.

The mountain properties in the Park County area are centrally located among five excellent fishing reservoirs, all within seven to twenty miles. New home owners are provided easy access to GOLD MEDAL fishing opportunities. You could catch record size fish, in catch and release programs. In the fall there is also great Aspen viewing in the whole area. Enjoy the magnificent views of Kenosha Pass and Collegiate Peaks.

Wildlife viewing is exceptional in this area. In these high mountain meadows you can see and photograph elk, deer, antelope, big horn sheep, bobcats, lynx, bear, and more. There is also easy access to thousands of acres for hunting in Pike National Forest.

On page C7 in this issue our readers will find much more information about Jefferson Real Estate and the services they provide. Also visit their web site at www.JeffReal.com. To help make your mountain dream become reality, contact Clay and his staff today.
