**Are You Ready For Blessings & Enlargement?**

And Jabez called on the God of Israel saying, "Oh, that You would bless me indeed, and enlarge my territory, that Your hand would be with me, and that You would keep me from evil, that I may not cause pain!" So God granted him what he requested. 1 Chron 4:10 NKJV

The publisher of this Guide, in addition to being an ordained minister of the Gospel, is a businessman with forty years of management consulting experience. While involved in his MBA training program at the Stanford University Graduate School of Business, he participated in the analysis of 3,000 corporation case studies. Since then he has been involved in many efforts to analyze the activities of many churches and businesses. He has helped to turn around a number of organizations, while following Biblical principles that he has taught for over 35 years.

He assists many organizations in formulating growth strategies and in implementing new technologies in their operations. During the past year he has studied and taught the Prayer of Jabez in local churches and businesses, with the aid of the latest available computer research tools. He assists in the analysis and improvement of community outreach marketing programs, to assist in building the Body of Christ and accomplishing the Great Commission. There is no obligation for an initial meeting to explore how we might help your church, ministry, or business. We delight in helping others experience blessings and enlargement of ministry territories, as Jabez did. Please fill in and return the form below. **Thank You Darren & Grease Monkey**

My wife, Diane, had gone to a tea party. On the way home she stopped to fill the car with gas at King Soopers, on the corner of Tower Road and Green Valley Ranch Boulevard. There was a car in front, so she turned the key off. When it was her turn at the pump, the car wouldn't start. She called me by cell phone to help her. There she sat for about an hour, holding up others in line, while I called a number of businesses. Not one person was available near the end of the work day. I finally took off to rescue her, with no good options in hand, and I prayed earnestly that God would help us.

As I drove by Grease Monkey, where we had both of our cars serviced, I was prompted to turn in. After hearing my plight, Darren, the Manager, was kind enough to loan me a great pair of jumper cables. I was able to move my wife's car, fill it with gas, and get it out of the line so others would not be hindered any longer. When I got our two cars together, I couldn't connect the jumper cables properly on my newer car. In desperation, I ran back to Grease Monkey. Darren was kind enough to drop what he was doing and come to King Soopers, to help get my wife's car started. We took her car back to Grease Monkey where they tested the battery. It was dead! Grease Monkey did the normal service and changed the battery. I was so glad to pay that bill and rejoiced that my wife got stranded so close to home. I pondered on the value of kindness when doing business with regular clients, and resolved that I would tell others about Darren's kindness and Grease Monkey.
